

SAP GTS as a Service

Leading practice in foreign trade – professional process-, SAP-, and operations-consulting from a single source: cbs

With SAP GTS as a Service, we provide not only professional consulting and implementation services but also comprehensive operations and system maintenance services for a truly global foreign trade solution. Use SAP GTS to handle all of your foreign trade processes and leave the system maintenance to us.

Our parent company, Materna GmbH, plays a key role in developing the German system of electronic customs processing (ATLAS). Materna and cbs have a unique consulting portfolio: customs expertise coupled with extensive process knowledge in foreign trade and technical know-how in the use of SAP GTS as a global foreign trade solution.
