

Company Profile

cbs Corporate Business Solutions Asia Pacific - Australia

cbs is a global consulting business that originated from Germany, now with over 3000 international projects over the last 30 years. We advise the world's most notable companies: renowned, highly innovative customers and hidden champions of the global manufacturing, pharma, life science, chemical, and automotive industries.

We have expanded into Singapore, Malaysia, Philippines, Japan, China, India, Taiwan and Australia across the Asia Pacific region while also delivering global roll-out projects in other countries. cbs shares the same goals, passion, and value in driving our customer's digital transformation agenda. We take a business-driven,

technology-enabled approach in delivering digital transformations, focused on solving critical business problems. From an end-to-end perspective, we cover people, structure, process, and technology with our highly skilled and dedicated process and technology consultants developed and trained from our global programs.

cbs is part of the Materna Group - Headquartered in Heidelberg, with international offices including Singapore, Malaysia, Japan, China, Switzerland, Spain, Finland, Turkey, Italy, Croatia, Austria, Australia, India, Brazil & the USA.

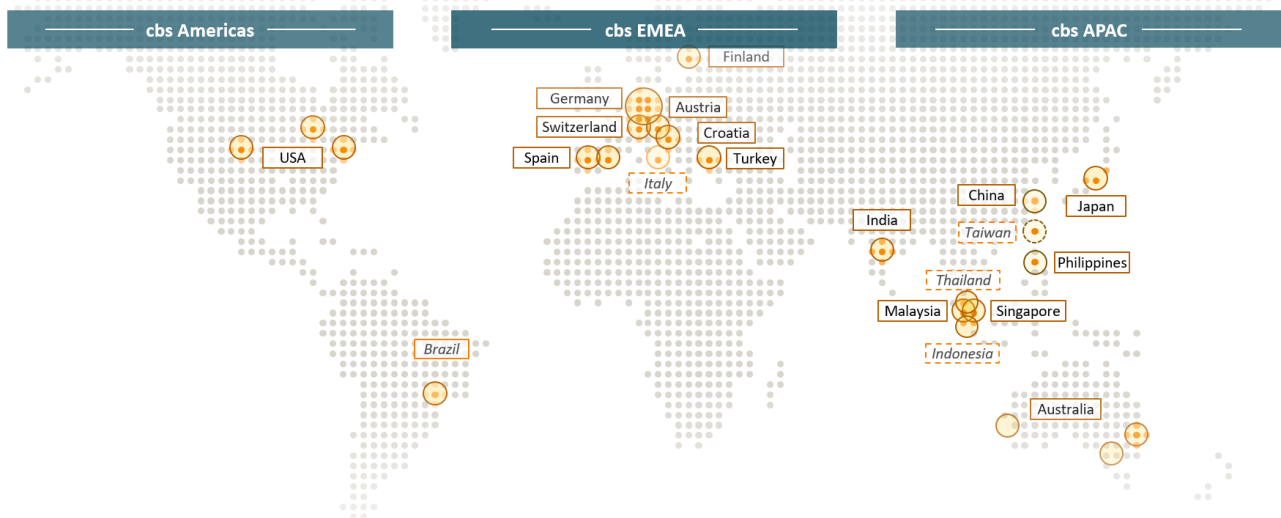

More Than 30 years of Consulting Excellence

Proven track records in strategic business enhancements

Over the years, cbs has developed our methodology, frameworks, tools, and assets to accelerate delivery, de-risking projects, optimize total effort and cost, and ensure success for our customer's investments.

We are one of the few SAP partner's globally that develops, owns, and operates our complex transformation tool to enable a seamless transition to S/4HANA with Near-zero downtime while retaining historical data, adopting new capabilities, and process improvements that maximize the value of investments.

cbs CEO

SAP S/4HANA Transition Types in Comparison

cbs provides full SAP service technology with extensive capabilities in consulting and solutions architecture to develop the right solution for our customers.

Although SAP has announced that it will stop providing support for the legacy ECC systems from 2027, the small, medium and big enterprise should actively think of moving or planning a smooth transition into SAP S/4 HANA.

New Implementation (Greenfield)	Selective S/4HANA Transition	System Conversion (Brownfield)
Process re-design (Business Disruption)	Selective process optimisation	No fundamental process change during conversion
Complete new system setup (Possible)	Re-use relevant custom solutions	Clean-up of obsolete solutions upfront possible
Deep Business/ IT Alignment Long Project Duration	Program duration based on scope	Short program duration feasible
Migration of selected relevant data	Migration of selected relevant data	All data history/ archiving possible
Go-live step-by-step or in waves	Big bang possible	Big bang mandatory
N:1 system merge possible	N:1 system merge possible	No system merge possible
Revolution	Selective	Evolution
